

Settings of the application

Profiles

The application lets you select between the profiles that you have created on the website. Click on “Profiles” and tick the one you wish to activate. Click on the profile name to show its rules and click on the arrow on the top right corner to hide them.

Other settings

Click on “Settings”. You can:

- change the language of the app and/or of the species
- log out and change user
- manage your preferences for push notifications. If you wish to receive push notifications for likes and comments on your alerts, your push notifications need to be activated altogether.
